# TROMBOEMBOLISMO PULMONAR

- TVP → TEP

Ocorrência súbita

# TEP

- Condição associadas com a hipercoagulabilidade;
- Origem embólica;

# Tromboembolismo Pulmonar

- Fatores de risco:
  - Hipercoagulabilidade
    - Primária
    - Secundária
      - Imobilização
      - Patologias cardíacas
      - Câncer
      - Fraturas de quadril
      - ACO

# Tromboembolismo pulmonar

- Morfologia
  - Grandes êmbolos nas artérias pulmonares
  - Êmbolos menores → vasos periféricos

# TEP

- Curso clínico
  - Dor torácica ( pleurítica)
  - Hemoptíase
  - Sibilância
  - Taquipneia
  - Dispneia

# Bibliografia
